Your ref:  
Our ref: HP-173

Blindern: Monday, 17 June 2002

Dear Dr. Yousif,

The editorial office in Stockholm has forwarded me your paper

“The magnetic interaction”,

and it has now my ref. no. HP-173. The paper was sent for refereeing, and I have now received a report, please see enclosed copy. Unfortunately, the referee is unambiguously arguing against publication of your paper. We consider the referee’s decision as final.

I should apologize for this unusually long refereeing period, but it turned out to be difficult to find a referee willing to take the responsibility of your paper. The submission of a revised version also added to this delay.

Thank you for considering *Physica Scripta*.

Sincerely yours

H. Pécseli
